

## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:

ZE'EV DRORI

Serial No. 08/334,843

Filed: November 4, 1994

For: ELECTRONICALLY PROGRAMMABLE  
REMOTE CONTROL ACCESS SYSTEM

Art Unit 2609

Examiner: Weldon, U.

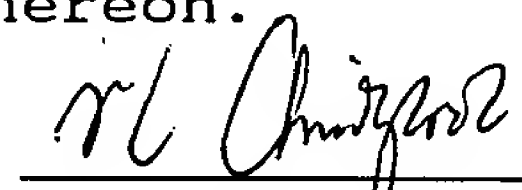

DECLARATION OF MAC AMIRPOOR

Mac Amirpoor hereby states as follows:

1. In 1987 I was employed by Clifford Electronics Inc. ("Clifford"), and am still employed by Clifford. I was involved in the circuit design of a security system known as the "INTELLIGUARD 500." I prepared a set of circuit schematics, copies of which are attached hereto, the first version of which was prepared by, and bears the date of February 13, 1987. Copies of these circuit schematics are attached as Exhibits A, B, C and D. The INTELLIGUARD 500 included the feature of electronic reprogrammability of the code.

2. The INTELLIGUARD 500 system had been designed and prototypes tested prior to May 14, 1987. In fact, it is my belief that such prototypes had been built and tested prior to the end of February, 1987. The circuit design and prototype testing and fabrication took place within the United States.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Dated: 5-26-95
  
 Mac Amirpoor

Part Number 73-523

MICRO-P, 80C49H INTELLI-GUARD
